SEALED CRISPER

S RICK BETTY OF TONY LIFE JOYCE ON MIKE JACK KEVIN

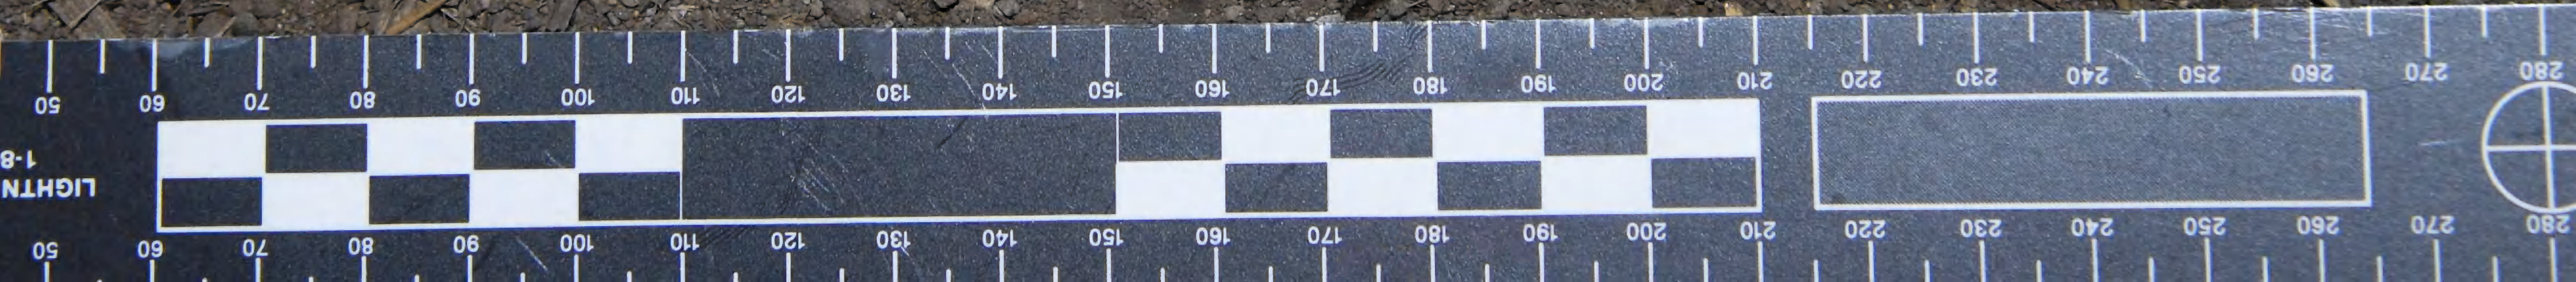

## COLOR MAGIC™ COLOR ENRICHED CAR POLISH

COLOR MAGIC, unlike traditional auto waxes or sealants, is specially formulated with urethane and colored dyes and pigments to blend in with original car colors of the same general shade range, therefore, an exact match is not necessary. Choose the COLOR MAGIC™ Polish that most closely matches the color of your car and watch it magically blend in and level out evenly on the surface and enhance its true color.

BLEND  
WITH ALL  
SHADES OF  
DARK BLUE

Now, color  
matched shine  
and protection is  
easy... simply  
wipe on and wipe  
off. No rubbing or  
buffing.

**DIRECTIONS:** Shake well. Wash and dry car. Pour onto damp cloth or sponge. Apply evenly and sparingly to a small section at a time using overlapping circular strokes. Let dry to a haze. Wipe off with a clean soft cloth, turning frequently. Buff lightly to bring out a deep gloss finish. Apply liberally where there are nicks and scratches using the same overlapping circular strokes. A second coat may be necessary in these areas. Do not use in direct sunlight or if surface is hot to the touch.

**NOTE:** Not intended for use on vinyl, wood or simulated wood, metalized plastic, decals or flat paint.

**CAUTION:** Contains dyes and pigments. Avoid contact with textiles and skin. Wash skin with soap and water. Contains petroleum distillates. May be harmful or fatal if swallowed. Do not induce vomiting. Call physician immediately.

KEEP OUT OF REACH OF CHILDREN.

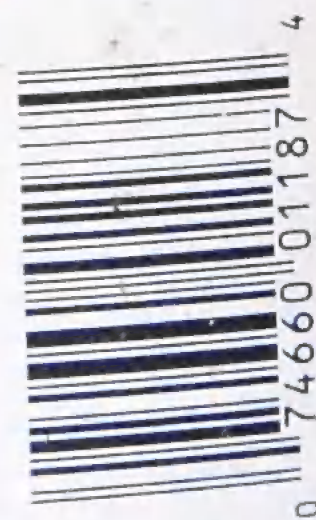

Stock No. T-187 DARK BLUE
